Notifications				
1	In-app notifications	Check your app to see if something has happened to your car.	✔	✔
2	Web notifications	Check your web account to see if something has happened to your car.	✘	✔
3	Push notifications	Learn if something happens to your car.	✘	PREMIUM

CarDroid will notify you in case of the following events

1	Car accident	This notification is a part of the ESNaR feature.
2	Trouble code	Be immediately notified if the CarDroid detects a trouble code in your car computer (e.g. the Check Engine Light is on).
3	Overrange	Receive notifications about the critical states of your vehicle: low fuel level, high rpm / engine temperature, etc.
4	Hard acceleration / braking	Receive notifications in case hard acceleration / braking is detected.
5	Suspicious activity	If a suspicious movement is detected inside your car, the CarDroid will notify you about it.
6	Hit-while-parked	Be notified in case of a parking lot car accident.
7	Tow-away	If your car is being towed-away, you will receive a notification.
8	Geofence	Set geofences in your account to receive notifications if a car enters or leaves the geofence or just crosses its border.
9	CarDroid removed	Immediately learn if the device is removed from your car OBD-II port.
10	Lost connection	If the CarDroid loses the Internet connection or GSM signal, you will get a notification.

[1] PREMIUM plan charge: $5.1 for 30 days per one device (17 cents are charged daily). Offers & price are subject to change without notice. FREE plan will be activated automatically if the account does not have sufficient funds. State & local sales taxes & fees may apply when adding funds to your account. Issued bonuses are non-refundable.

[2] Local Connection allows you to connect to your CarDroid directly without using UonMap server via CarDroid Wi-Fi hotspot to monitor the available data. In this case your CarDroid does not need the Internet access.

[3] Remote Connection allows you to connect to your CarDroid using UonMap server to monitor the data. This type of connection requires a UonMap account and a SIM card.

[4] Connect only one device if you use FREE plan. Connect unlimited number of devices if you use PREMIUM plan.
